

# **Archiving by Design**

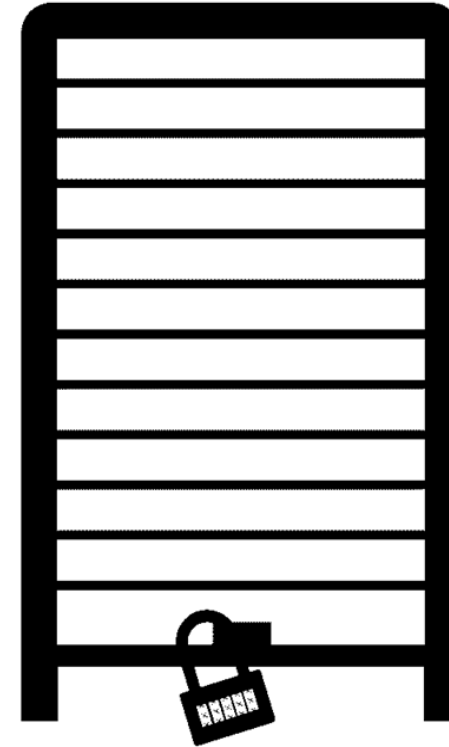

# In hindsight?

Radenci conference  
20260520

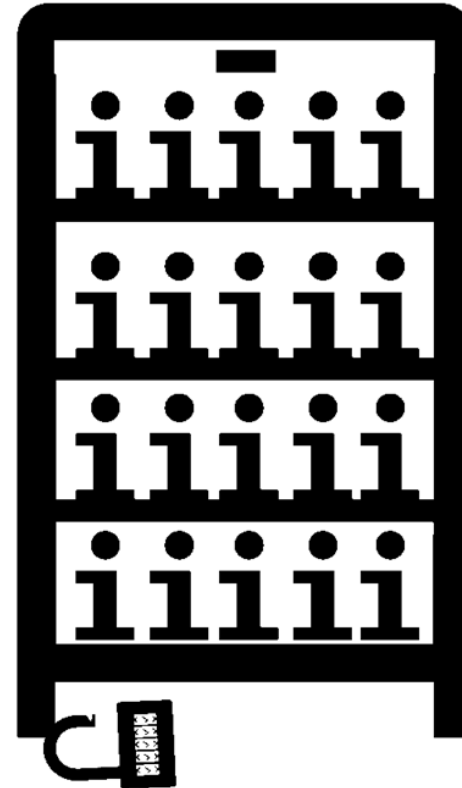

Archiving by Design

# Archiving

Archiving encompasses everything that is needed to make information accessible for as long as needed

‘sustainable accessible information’

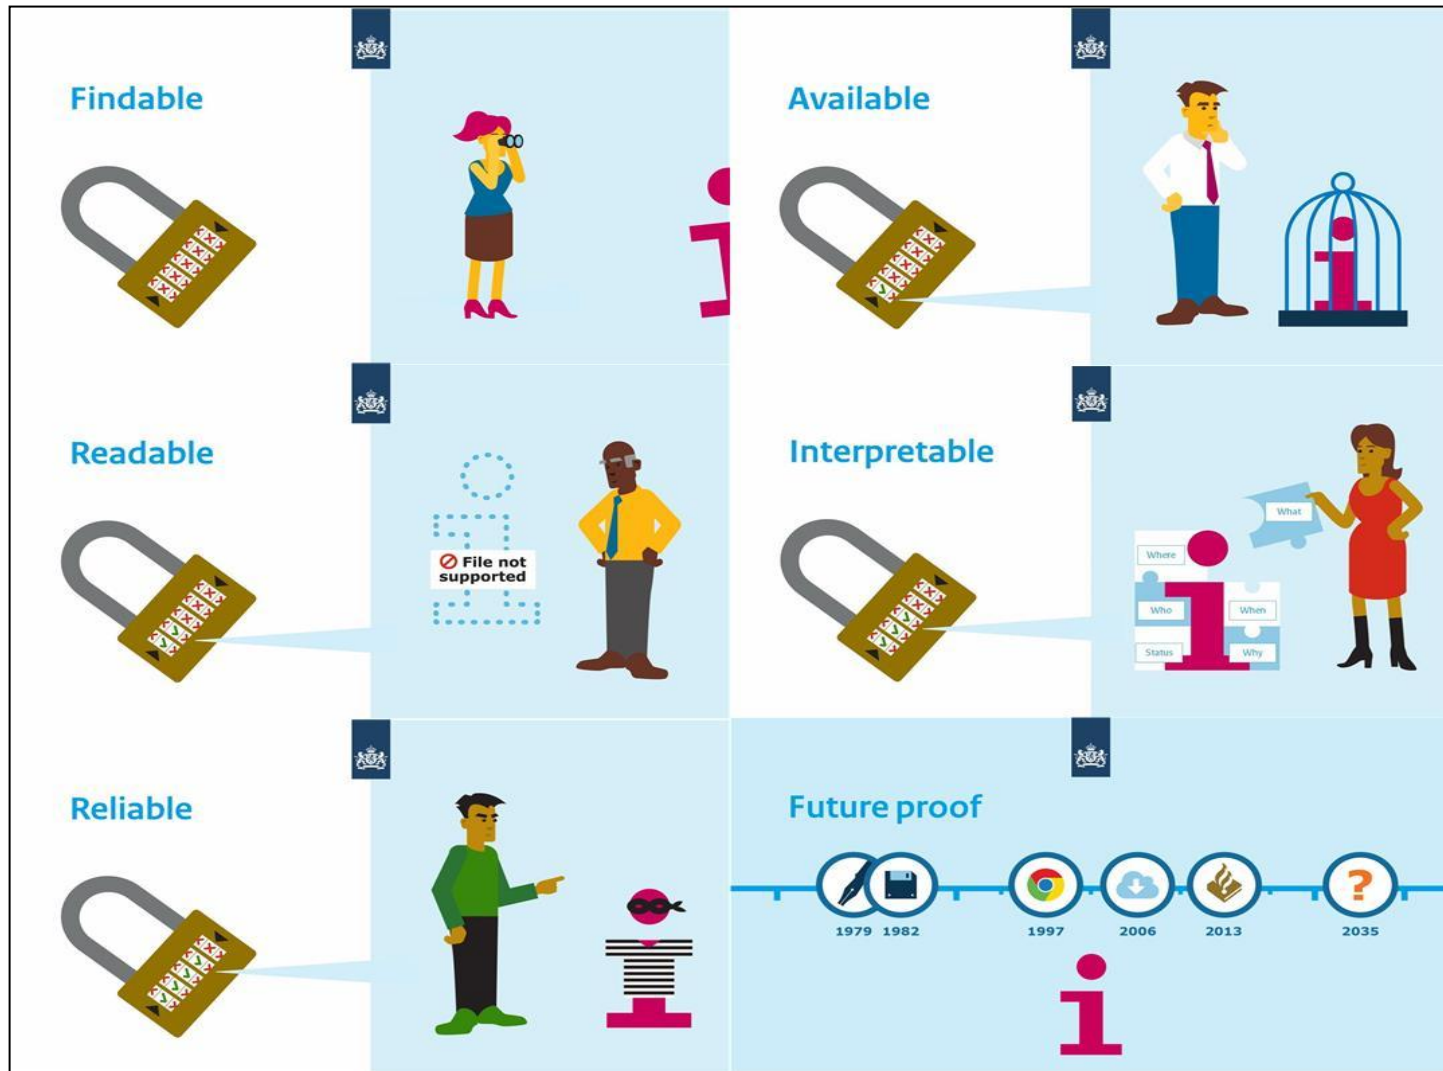

Archiving

Sustainable  
accessible  
information

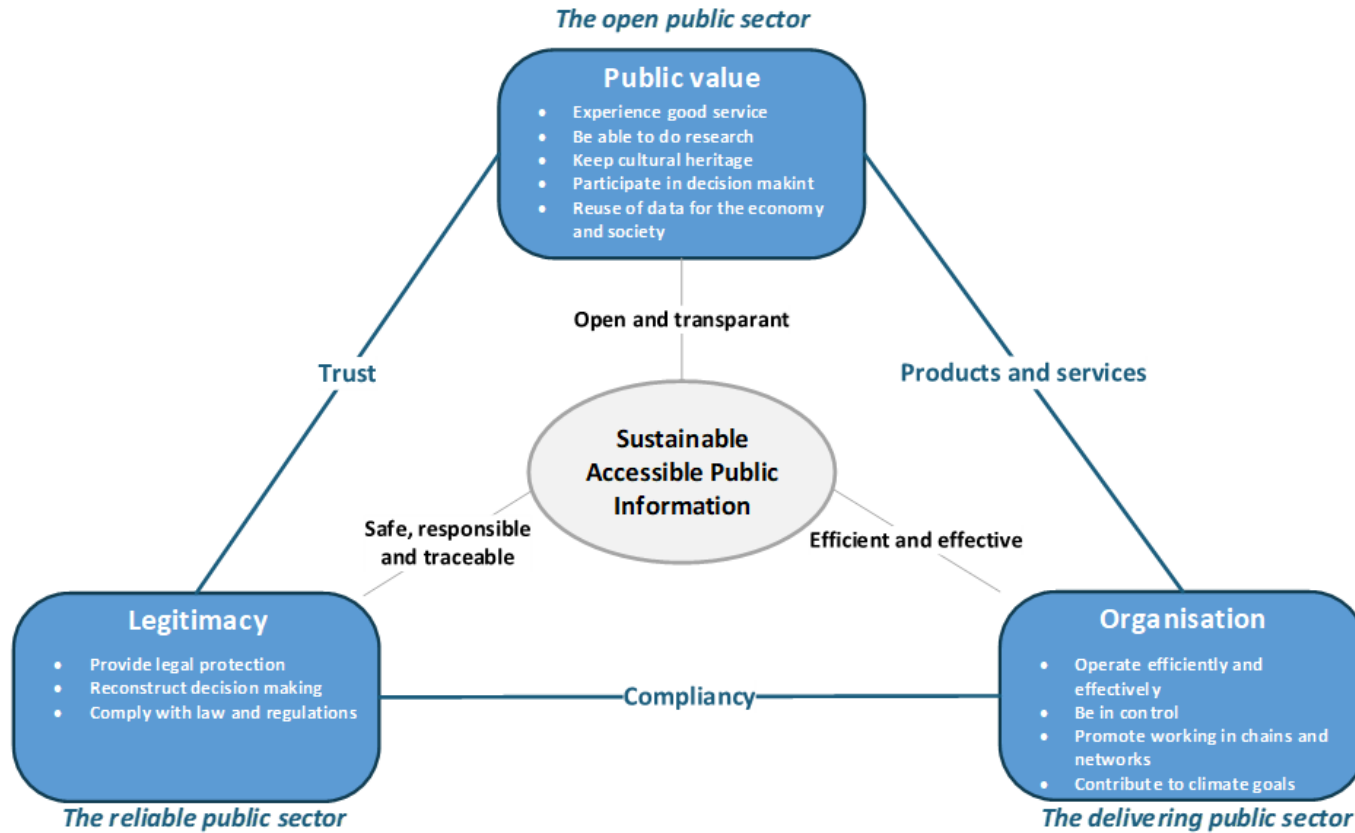

Key characteristics of sustainable accessible information

## Creating public value by Sustainable Accessibility

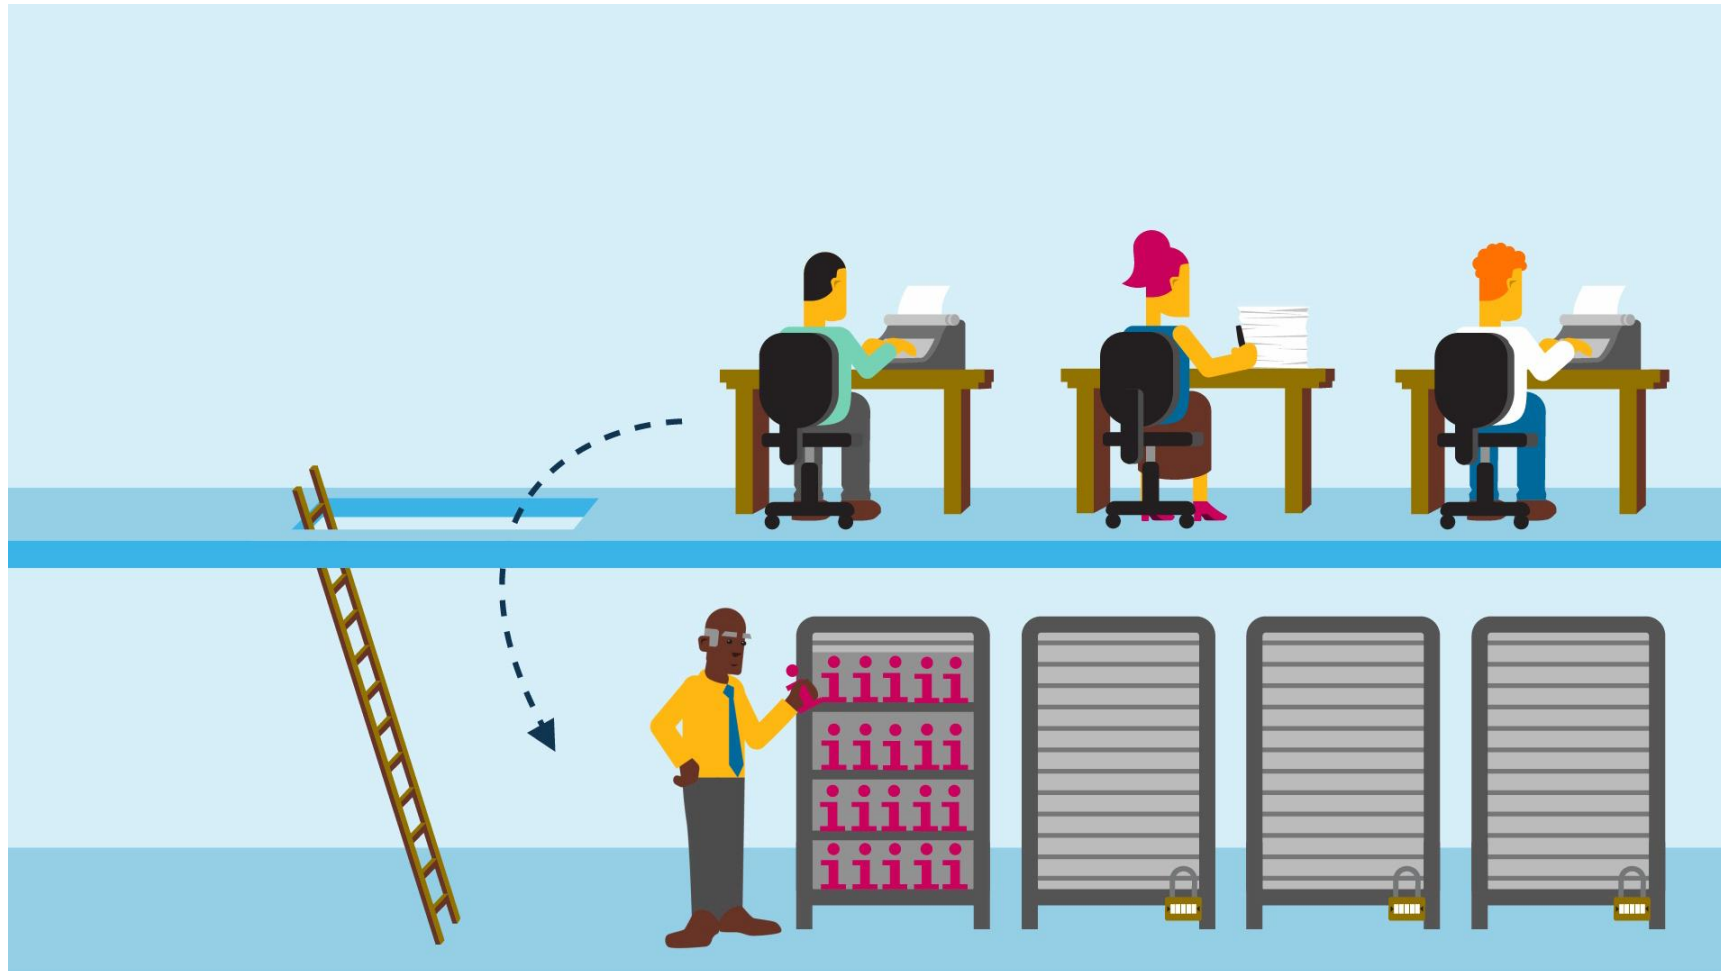

# Why important?

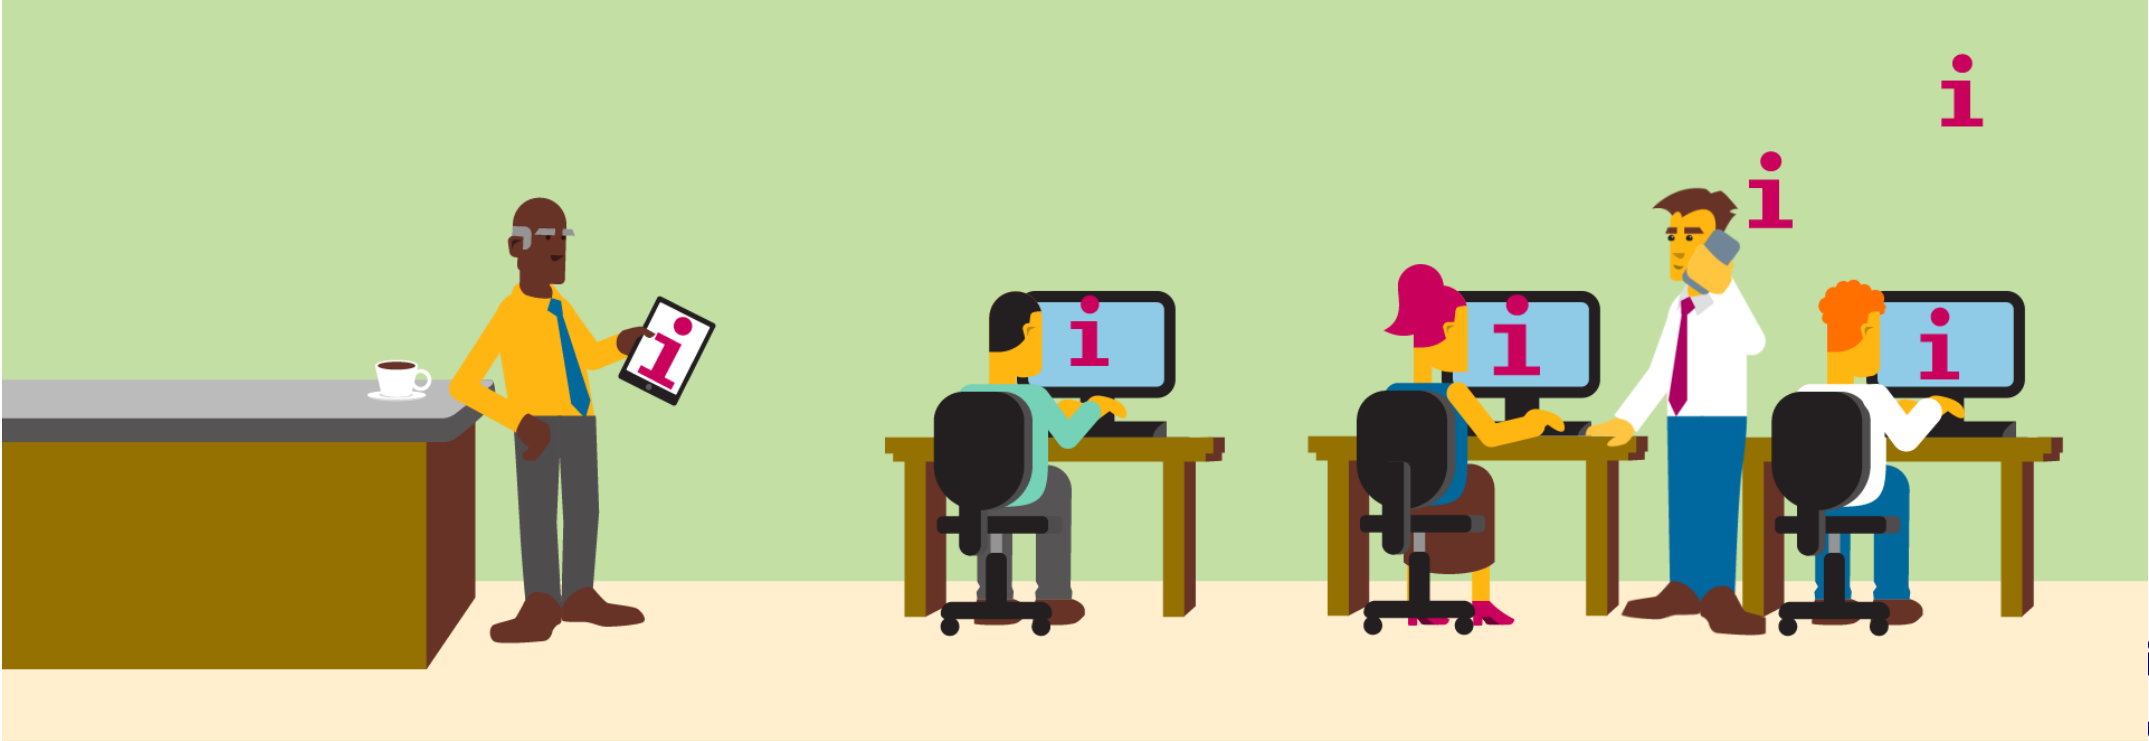

The issue

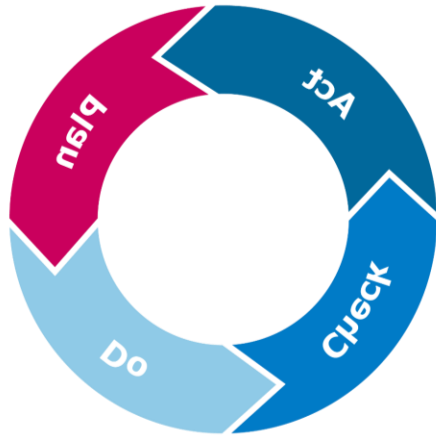

# Archiving now/once

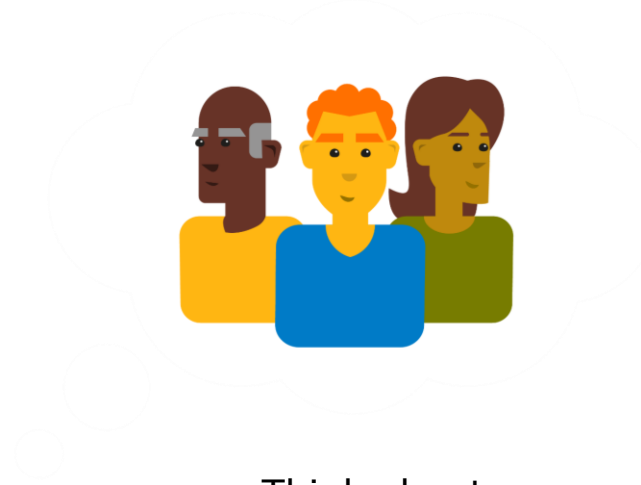

# Archiving now/future

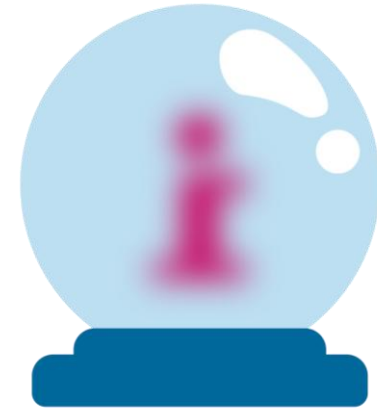

# Archiving by design as an answer

Make choices in the design phase

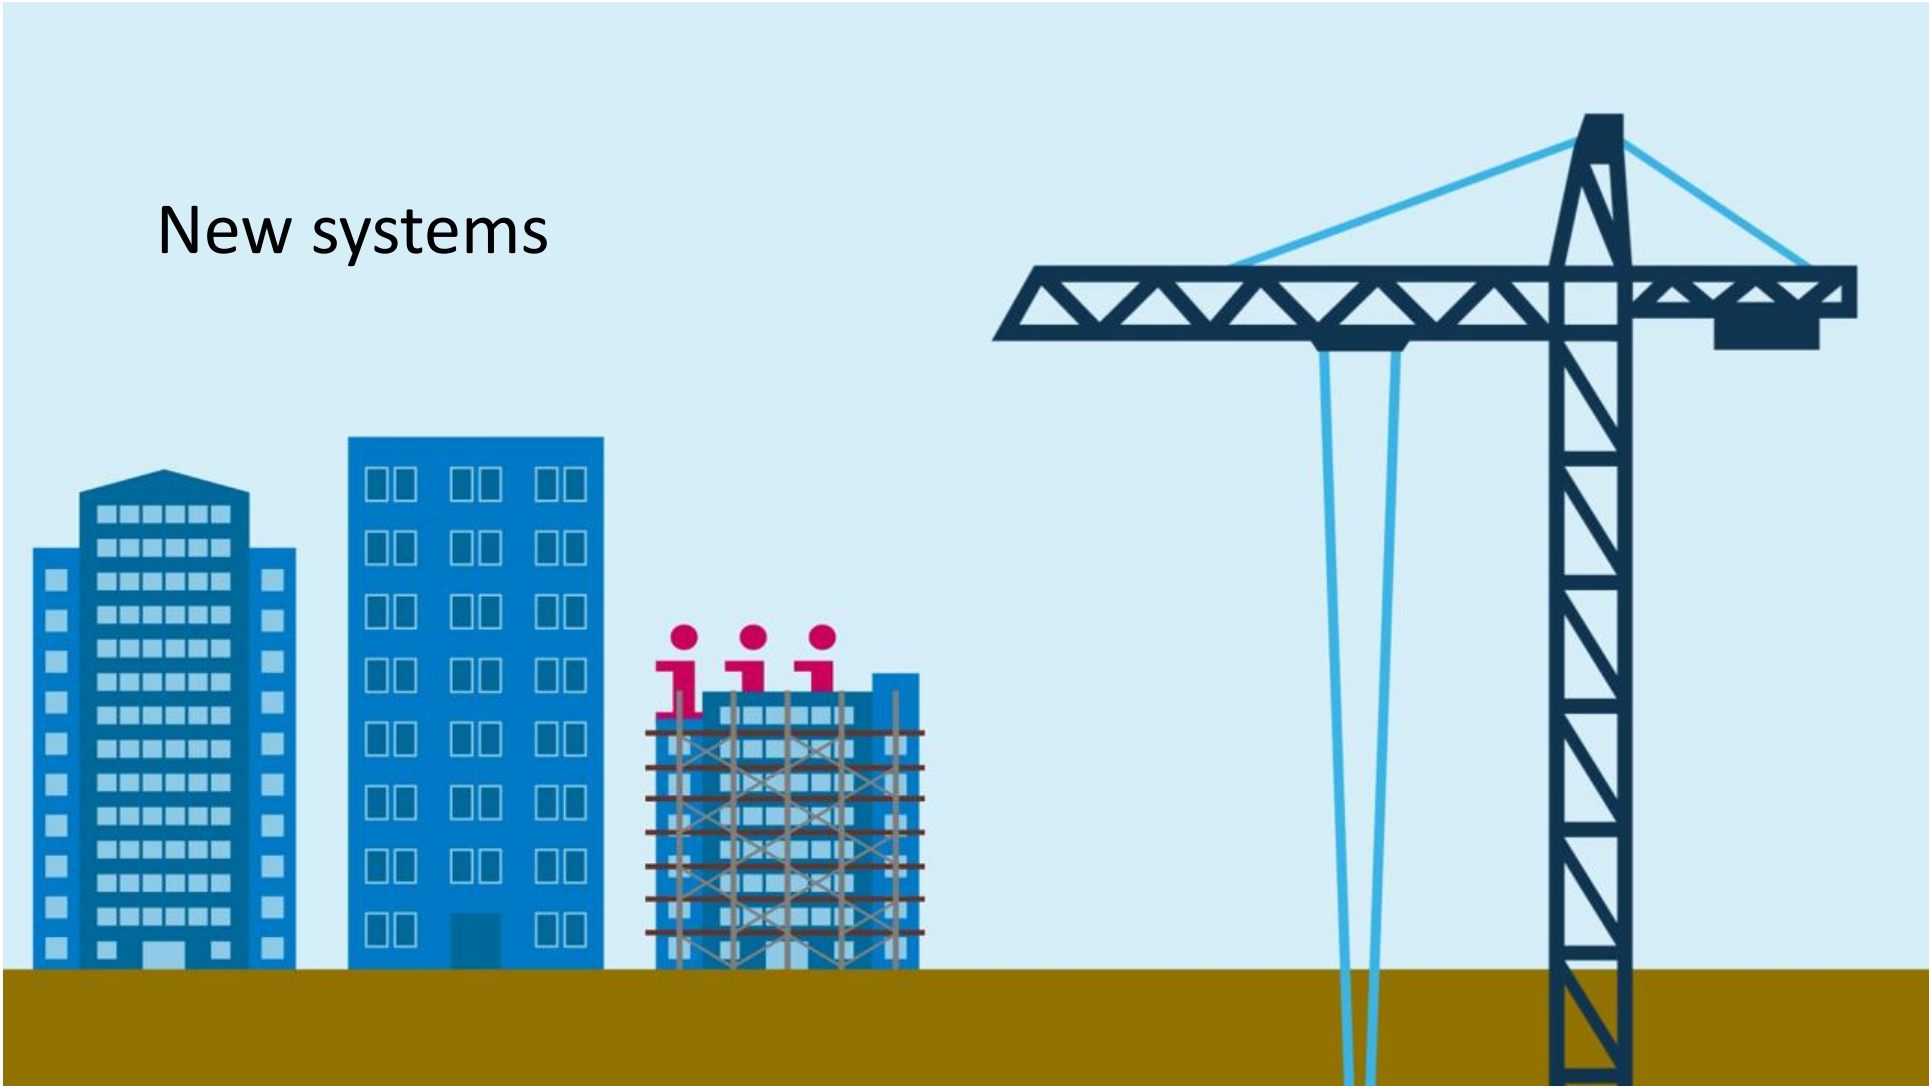

Think about future use

Look at the future

New systems

# Existing systems

Choices..

As the contexts change over time,  
requirements will change as well

AbD is not an one-off..

# Archiving by design in practice

## Theoretical part

The what and the why of sustainable accessible information

## Practical part

(a.o) Formulates model requirements and preconditions for the design of (government) information systems

AbD Toolbox workshop
